Have fun while exploring Prague!

Find the tasks with the diamond  signs on the map. Play alone or with your friends: the one who loses pays for the drinks this night!

1 correct answer = 1 point\*

1. Let's start at the **Old Town Square**. The first point on your route is **Church of Our Lady before Týn**. Have a closer look to the towers. The towers are not of the same size and are named after a couple. The bigger tower (the Southern one) is called Adam. Guess the name of the second tower.

2. Stop by the **Astronomical Clock**. Find a skeleton on the upper side of the clock. On the same level there are 3 figures which interpret 3 sins: Lust (playing a musical instrument), Vanity (holding a mirror) and... What is the third sin?

3. On your way from the Old Town square to Wenceslas Square stop by **Hávelská Street**. On your right you will find a big souvenir market called Hávelský Market. On your left there will be a building of **Czech Savings Bank Gallery**. Have a closer look to the facade, where several coat of arms of Prague districts are presented. How many of them have you found?

5. Find a hidden place at the Václavské náměstí tram stop. Enter the "Svetozor" passage and look at the colored glass advertisement of Technika Slaboproudá company. Find the abbreviated name of this Czechoslovak company in a glass advertisement.

6. From **Střelecký island** opens a magnificent view to Charles bridge. Have a closer look to the bridge and find out how many arches does it have.

7. On the crossroad you will see big stairs, where a **Memorial to the Victims of Communism** is placed. The statue of the first person seems to be all right, but the others are missing something of their anatomy, which symbolises the suffering of the prisoners, their courage and resilience. Take a moment to find out how many statues are there on this memorial.

8. Well done! You reached **Petřín Lookout Tower!** Here is the last question for you! The Tower is often called a small copy of the Eiffel Tower. Even its peak is placed at the same altitude. But apart the size of the Tower, what is the basic difference between them?

4. There used to be trams operating along the Wenceslas Square. Now there are only two old trams left as a memorial to the old tramways in the middle of the square. Find out, what was the number of that old route?
